Mexico City (October 27, 2011), Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) ("Coca-Cola FEMSA" or the "Company"), the largest public Coca-Cola bottler in the world in terms of sales volume, announces results for the third quarter of 2011.

"Despite increased global volatility, our Company delivered strong results for the quarter. Our operators' refined execution to serve and satisfy our consumers' preferences generated solid volume growth. This, combined with our strategy to selectively increase prices across our territories, produced double-digit top-line growth. As our Company continues to grow, so does our team of professionals—not only in their capabilities, but also in the number of consumers they serve—as exemplified by the successful merger with Grupo Tampico's beverage division and the upcoming merger with Grupo CIMSA. These transactions will greatly contribute to our business going forward and consolidate our leadership in the Mexican market. Together, we will leverage our mutual strengths to deliver increased value for our shareholders. As we enter the final part of the year, in the face of global economic challenges, we feel even stronger, with greater flexibility, to transform these challenges into opportunities in every operation; to capitalize on the defensive strength of our industry; and to extend our track record of profitable growth." said Carlos Salazar Lomelin, Chief Executive Officer of the Company.

# **CONSOLIDATED RESULTS**

Our consolidated total revenues increased 18.1% to Ps. 30,332 million in the third quarter of 2011, compared to the third quarter of 2010 as a result of double-digit total revenue growth in each division. On a currency neutral basis, total revenues grew approximately 16%, driven by average price per unit case growth in most of our operations, in combination with volume growth mainly in Mexico, Colombia and Argentina.

Total sales volume increased 4.8% to reach 645.9 million unit cases in the third quarter of 2011 as compared to the same period in 2010. The sparkling beverage category grew 6% mainly supported by strong volume growth of the *Coca-Cola* brand in Mexico and Colombia, contributing more than 90% of incremental volumes. The still beverage category grew 10%, mainly driven by the Jugos del Valle line of business in Mexico and Brazil and the *Cepita* juice brand in Argentina. These increases compensated for a 1% decrease in our bottled water portfolio, including bulk water.

Our gross profit increased 15.7% to Ps. 14,032 million in the third quarter of 2011, compared to the third quarter of 2010. Cost of goods sold increased 20.3%, mainly as a result of higher PET and sweetener costs across our territories, which were partially compensated by the appreciation of the average exchange rate of the Brazilian real,<sup>(1)</sup> the Mexican peso<sup>(1)</sup> and the Colombian peso<sup>(1)</sup> as applied to our U.S. dollar-denominated raw material costs. Gross margin reached 46.3%, as compared to 47.2% in the third quarter of 2010.

Our consolidated operating income increased 10.0% to Ps. 4,673 million in the third quarter of 2011, driven by double-digit operating income growth in our South America division and high single-digit operating income growth recorded in our Mexico & Central America division. Operating expenses increased 18.8% in the third quarter of 2011 mainly as a result of higher labor costs in Venezuela, in combination with higher labor and freight costs in Argentina. Our operating margin was 15.4% in the third quarter of 2011, as compared with 16.5% in the same period of 2010.

During the third quarter of 2011, we recorded Ps. 503 million in the other expenses, net line. These expenses mainly reflect the recording of employee profit sharing and the loss on sale of certain fixed assets.

Our comprehensive financing result in the third quarter of 2011 recorded an expense of Ps. 333 million as compared to an expense of Ps. 512 million in the same period of 2010. This difference was mainly driven by lower net interest expenses as a result of the recording of a financial cost related to the sale of bonds in one of our South America subsidiaries during the third quarter of 2010.

During the third quarter of 2011, income tax, as a percentage of income before taxes, was 35.3% compared to 31.7% in the same period of 2010. This difference was mainly driven by an increase in the tax on shareholder's equity in one of our subsidiaries in the South America division.

Our consolidated net controlling interest income grew 7.1% reaching Ps. 2,278 million in the third quarter of 2011 as compared to the third quarter of 2010. Earnings per share (EPS) in the third quarter of 2011 were Ps. 1.23 (Ps. 12.34 per ADS) computed on the basis of 1,846.5 million shares outstanding as of September 30, 2011(each ADS represents 10 local shares).
