Entering 2013, I am confident that our growing family of more than 100,000 proud and passionate employees will enable us to transform our industry's arising challenges into opportunities. ## CONSOLIDATED RESULTS

Coca-Cola FEMSA is including the results of Grupo CIMSA as of December 2011 and Grupo Fomento Queretano as of May 2012 in the Company's Mexico \& Central America divisions' operating results.
All the financial information presented in this report was prepared under International Financial Reporting Standards (IFRS) and 2011 figures have been restated under these accounting standards.

Our reported total revenues increased $10.4 \%$ to Ps. 39,860 million in the fourth quarter of 2012, compared to the fourth quarter of 2011 mainly as a result of double-digit total revenue growth in the Mexico \& Central America division, including the integration of Grupo CIMSA and Grupo Fomento Queretano in our Mexican operations ${ }^{(1)}$. Excluding the non-comparable effects of Grupo CIMSA and Grupo Fomento Queretano in Mexico, total revenues grew $6.0 \%$. On a currency neutral basis and excluding the recently merged territories in Mexico, total revenues grew $14.1 \%$, driven by average price per unit case growth in almost every territory and volume growth mainly in Mexico, Colombia, Venezuela, and Brazil.

Reported total sales volume increased $10.6 \%$ to reach 810.1 million unit cases in the fourth quarter of 2012 as compared to the same period in 2011. Excluding the non-comparable effects of Grupo CIMSA and Grupo Fomento Queretano in Mexico ${ }^{(1)}$, volumes increased $3.6 \%$ to reach 759.0 million unit cases. On the same basis, the still beverage category grew $13.5 \%$, mainly driven by the performance of the Jugos del Valle line of business in Venezuela and Mexico. In addition and excluding the noncomparable effects, our sparkling beverage category grew $2.7 \%$ driven by $4 \%$ growth of brand Coca-Cola and our bottled water portfolio grew $22.3 \%$. These increases compensated for a $3.9 \%$ decline in our bulk water business.

Our reported gross profit increased $14.4 \%$ to Ps. 18,815 million in the fourth quarter of 2012 , as compared to the fourth quarter of 2011. Lower PET and sugar prices in most of our territories were partially compensated by the depreciation of the average exchange rate of the Brazilian real ${ }^{(2)}$ and the Argentine peso ${ }^{(2)}$ as applied to our U.S. dollar-denominated raw material costs. As a result, reported cost of goods sold increased $7.1 \%$. Reported gross margin reached $47.2 \%$, an expansion of 160 basis points as compared to the fourth quarter of 2011.

As reported during the fourth quarter of 2011, we registered a write-off of certain non-productive assets, including production equipment, coolers, forklifts and returnable bottles and cases, mainly in our South America division. This effect was recorded in the other operative expenses, net line. During the fourth quarter of 2012, this line registered certain restructuring charges related to the integration of the new franchises in Mexico.

Our reported operating income increased $29.5 \%$ to Ps. 7,224 million in the fourth quarter of 2012, driven by double-digit operating income growth in both divisions, and including the integration of Grupo CIMSA and Grupo Fomento Queretano in Mexico ${ }^{(1)}$. Our reported operating margin reached $18.1 \%$ in the fourth quarter of 2012 , as compared with $15.5 \%$ in the same period of 2011, an expansion of 260 basis points. Excluding the non-comparable effects of Grupo CIMSA and Grupo Fomento Queretano in Mexico, operating income increased $26.0 \%$. On the same basis, operating expenses increased in the fourth quarter of 2012, mainly as a result of higher labor costs in Venezuela and Brazil in combination with higher labor and freight costs in Argentina and continuous investment in marketing across our territories in Mexico. Additionally, as in previous quarters, we recorded additional expenses related to the development of information systems and commercial capabilities in connection with our commercial models across our territories, and certain investments related, among others, to the development of new lines of business and non-carbonated beverage categories.

Our comprehensive financing result in the fourth quarter of 2012 recorded an expense of Ps. 611 million as compared to an expense of Ps. 270 million in the same period of 2011. This difference was mainly driven by a foreign exchange loss as a result of the quarterly depreciation of the end-of-period exchange rate of the Mexican peso ${ }^{(2)}$ as applied to a higher US dollardenominated net debt position.

During the fourth quarter of 2012, income tax, as a percentage of income before taxes, was $32.5 \%$ as compared to $35.0 \%$ in the same period of 2011. The difference was mainly driven by the recording of a tax on shareholders equity in our Colombian subsidiary during 2011.

Our reported consolidated net controlling interest income grew $34.7 \%$ to Ps. 4,324 million in the fourth quarter of 2012. Earnings per share (EPS) in the fourth quarter of 2012 were Ps. 2.13 (Ps. 21.30 per ADS) computed on the basis of $2,030.5$ million shares (each ADS represents 10 local shares).

## RECENT DEVELOPMENTS

On January 17, 2013, Coca-Cola FEMSA announced an agreement to merge its operations with Grupo Yoli, one of the oldest family-owned Coca-Cola bottlers in Mexico, operating mainly in the state of Guerrero as well as in parts of the state of Oaxaca. This merger agreement is subject to the completion of confirmatory legal, financial, and operating due diligence and to customary regulatory and corporate approvals. For additional information, please refer to the press release filed on such date on our website.

- As of January 25, 2013, Coca-Cola FEMSA finalized the acquisition of $51 \%$ of Coca-Cola Bottlers Philippines, Inc. (CCBPI) from The Coca-Cola Company, for an amount of US $\$ 688.5$ million in an all-cash transaction. The results of CCBPI will be recognized by Coca-Cola FEMSA using the equity method.
- On February 13, 2013 Venezuela devalued its currency by $46.5 \%$ to 6.30 bolivars per US dollar from 4.30 bolivars per US dollar. We expect this event will have an effect on our financial results, increasing our operating costs, as a result of the exchange rate movement applied to our US dollar-denominated raw material cost, and reducing our Venezuelan operation results when translated into our reporting currency, the Mexican peso. According to accounting practices, the exchange rate that will be used to translate our financial statements as of February 2013, will be 6.30 bolivars per US dollar. Additionally, during 2013, as a consequence of the change in the Labor Law in Venezuela announced during 2012, and its changes to workweek length, our labor expenses will continue to be pressured. However we will continue to adapt our service models to the dynamics of the market.
- On February 26, 2013, Coca-Cola FEMSA's Board of Directors agreed to propose, for approval at the Annual Shareholders meeting to be held on March 5, 2013, an ordinary dividend of Ps. 5,950 million, to be paid in two installments during May and November of 2013. This proposed amount represents a dividend per share of approximately Ps. 1.45 for the first installment, computed on the basis of $2,030.5$ million shares; and a dividend per share of approximately Ps. 1.45 for the second installment, computed on the basis of $2,072.9$ million shares which include the 42.4 million shares to be issued to the shareholders of Grupo Yoli, if the merger of Grupo Yoli is approved. In the event that the referred merger of Grupo Yoli with Coca-Cola FEMSA is not approved, the dividend per share of approximately Ps. 1.45 per share will not be modified.
